WEATHER WATCH FOR YEAR 5 AND 6 CAMP 2018

Dear Parent/Caregivers of Year 5 & 6 Students

With the effects of Cyclone Gita likely to develop into a deep low as it gets to New Zealand, it will have some impact on camp and as such, we are letting you know of the weather management plans in place.

1. If at any stage it looks like the weather may impact severely on camp and it is unsafe the Finlay Park Cyclone plan states we will be sent home.
2. If the weather means rain and wind will impact on camp we will adapt camp activities under the instruction of Finlay Park Camp staff so we can participate safely following the health and safety guidelines of each activity.

Finlay Park Camp is positioned in a sheltered/ low wind location above the Waikato River. Greenpark staff along with Finlay Park Management will monitor the weather situation closely.

At this stage we are all go for both camps and we will update you if anything changes.

Kind Regards

Jason Mischewski
Deputy Principal
